

Titan Equity Partners, LLC

T I T A N B A C K G R O U N D

Value Creation results from actively expanding and improving businesses. Titan Equity Partners has the experience and resources required to identify investment opportunities, purchase or recapitalize those companies, and work with management to craft pro-active strategic plans. Implementing those visions and achieving successful results is the critical role of management. Titan Equity Partners recognizes management's pivotal role in the value creation process and, therefore, views it as essential that key managers participate meaningfully in the equity returns of the enterprise.

Anthony R. Pesavento has been a private investor in the buyout business since 1990, having worked with Carl Street Partners and LaSalle Capital Group prior to founding Titan Equity Partners. Completed transactions include a wide-range of specialty manufacturing and distribution companies. Prior to entering the equity business, Mr. Pesavento worked with J.P. Morgan in New York. He earned a BS in Finance with Highest Honors from the University of Illinois in 1983 and an MBA from the University of Chicago in 1987.

In addition to funds provided by Titan Equity Partners, a group of private and institutional investors stand ready to capitalize transactions.
